Sir:

Applicants disclose herewith references of which they are aware, which they believe may be material to the examination of this application and in respect of which they may have a duty to disclose in accordance with 37 CFR 1.56.

While this Information Disclosure Statement may be "material" pursuant to 37 CFR 1.56(b), it is not intended to constitute an admission that any document referred to herein is "prior art" for this invention unless specifically designated as such.

I hereby certify that this correspondence is being deposited on the date shown below with the United States Postal Service in an envelope addressed to the Assistant Commissioner for Patents, PO Box 1450, Alexandria VA 22313-1450.

Dated: Jan. 29, 2009

In accordance with 37 CFR 1.97(g), the filing of this IDS shall not be construed to mean that a search has been made or that no other material information as defined under 37 CFR 1.56(a) exists.

The enclosed references are cited in an International Search Report in a corresponding international application. The ISR was disclosed to the USPTO concurrently with the filing of the U.S. national stage application on December 12, 2005. However, three references were inadvertently overlooked at the time. Applicants now provide a copy of the missing references, i.e., EP 1 253,720 A; EP 1 091 497 A; and US 6,107,960.

Reference is made to a telephone conference on January 29, 2009 between the Examiner and the undersigned, in which the Applicants' Attorney indicated that it was presumed that this material had been forwarded to the USPTO by WIPO. The Examiner plans to issue a Supplemental Notice of Allowability upon receipt of this IDS, thus ensuring that all documents will appear on the face of the issued patent. If there is any additional charge for filing an IDS at this time, please debit our Account No. 23-0442.

Respectfully submitted,
